Claims 11-24 allowed.

The following is an examiner's statement of reasons for allowance:

The prior art fails to disclose or suggest the step of "removing the phases from the burner and then cooling the phases by direct contact with a cooling medium; and...wherein the cooling medium consists of an essentially water-free cooling medium, which cooling medium is at least partially vaporized or cracked whereby the vaporized/cracked cooling medium is drawn off together with the phase of flammable gaseous material, and the cooling medium after vaporizing/cracking increases the calorific value of the flammable gaseous material relative to the calorific value of the flammable gaseous material without addition of the essentially water-free cooling medium" in combination with the additional steps recited therein.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
